Chalet No6 unveils three-bedroom plan

Choice has always been paramount with Hopewell Residential and its Chalet No6 townhomes in Copperfield.

The builder has added to the choices with the introduction of a three-bedroom floor plan, says Sydney Forman, area manager for Chalet No6.

"Our new three-bedroom plans will appeal to families seeking a price-pointed home, such as young couples with a family or couples planning on starting a family, owners who want an extra room for visitors, an office or a separate entertainment area," says Forman.

The extra room doesn't come with an extra-large price tag.

"The affordability is fantastic. It's difficult to find three-bedroom homes in our price range," says Forman. "The A plans with garage and walk-outs now have the option of three bedrooms and are starting in the low \$300,000s."

"The O and P plans come without a garage and start in the \$270,000s and \$280,000s respectively."

"Even better is the fact that you get great standard features, a functional floor plan, and an established community with schools and amenities nearby."

Hopewell's townhomes are some of the best in the city, says Forman.

"Chalets have the best floor plans with the best standard specifications, along with the most competitive price

in the southeast quadrant of the city," he says. "Our location is outstanding. We're minutes from one of the best shopping areas in the city on 130th Avenue, there are no community fees, schools are nearby and we're located across from a large park and walking paths in the wetlands protected area."

Standard features in every Chalet townhome range from 9-ft. ceilings to 2-in. window blinds to stainless steel appliances, full-height kitchen tile backsplash and welcoming outdoor living spaces.

"Hopewell Residential is one of the most respected builders in Calgary and we believe in offering outstanding quality at an affordable price," says Forman.
