

HOPEWELL PAIRED  
HOMES IN MAHOGANY

CONTRIBUTED

# Spacious homes get back to nature

## Project overview

Green space and lakeside living make Hopewell Paired Homes in Mahogany, new semi-detached homes introduced by Hopewell Residential, the ideal living space. Homeowners have many options with immediate possessions available or the opportunity to create their own unique home from the bottom up.

## Location and transit

Nestled on the outskirts of Deerfoot Trail and Highway 201, Mahogany is a highly accessible neighbourhood for commuters. With a number of bus routes and transit stations near by, Mahogany is also planned to host one of the Calgary Transit Green Line's future stops.

## Building amenities

This peaceful stretch of space in southeast Calgary boasts 74 acres of natural wetland along with a network of walking and biking paths. Right next to the city's largest freshwater lake, these paired homes in Mahogany are surrounded by playgrounds and parks.

## In the neighbourhood

An ideal spot for families, these paired homes in Mahogany are in walking distance from a surplus of parks, schools and recreation centres. Only five minutes from the South Health Campus, homeowners will also have access to shops and restaurants with the soon-to-be-complete South Urban District.
