

CALGARY SUN **NEW HOMES & CONDOS**

Ten new laned showhomes now open in Mahogany

Hopewell Residential, Excel Homes and Jayman Built have opened 10 new laned showhomes in Hopewell Residential's south-east community of Mahogany.

The award-winning builder group brings forward-thinking home designs and affordable starting prices to the city's best-selling lake community, says Nicole McLaws, marketing manager at Hopewell Residential.

"As the developer of Mahogany, we're excited to open 10 new showhomes that offer just what new home purchasers need," says McLaws. "And, as one of the home builders in

this exciting new showhome parade, we can't wait to open the doors to our never-before seen showhome models."

Hopewell Residential features four showhomes, including a bungalow model and three two-storey homes, while Jayman and Excel each showcase three laned showhomes.

Prices start in the \$390,000s.

"These homes have fantastic curb appeal, along with inspiring interior designs," says McLaws. "They offer lasting quality, value and family-friendly layouts, all within moments of Mahogany Lake."

Mahogany features a four-season lifestyle, centred around Calgary's largest lake.

"Mahogany is a complete community, with so much to offer," says McLaws. "From the lake, to the wetlands, to the newly opened shopping and restaurants in the Mahogany Village Market, there's no shortage of amenities."

"Families, couples, downsizers and everyone in between will find something to love with Mahogany's new laned showhome parade."

"These homes feature three or more bedrooms, an abundance of storage space, optional basement development, spacious ensuites, dedicated laundry rooms and entertainment spaces designed with modern lifestyles in mind. They are absolutely worth a visit."
